

## **MEDICINAL GARDEN**

### **Enhancing Herbal Knowledge and Practical Learning Through the Medicinal Garden at Unity College of Pharmacy for Holistic Pharmaceutical Education**

The Medicinal Garden at Unity College of Pharmacy serves as an invaluable educational repository, facilitating practical instruction and augmenting herbal acumen. It showcases a diverse assortment of medicinal flora, including Tulsi, Neem, Aloe vera, and Ashwagandha, each accompanied by botanical specifications and medicinal applications. Students acquire firsthand expertise in plant identification, cultivation techniques, and therapeutic utilization, thereby synergizing traditional erudition with contemporary pharmaceutical methodologies. The garden augments comprehension of natural therapeutics, bolsters research endeavors, and cultivates ecological consciousness. Periodic faculty-led instruction sessions render it an indispensable asset within the pharmacy curriculum, fostering student appreciation for the role of nature in pharmacological innovation and healthcare delivery.
